| Length/Diameter | 3,15:1 |
| Internal Quality <i>Scale of 1 (very low) to 9 (very high)</i> | 7 |
| External Quality <i>Scale of 1 (very low) to 9 (very high)</i> | 7 |

Variety Benefits

Most productive variety from our assortment. Needs high input (fertilization, crop protection). Leading variety for Flieger-harvest-System with longterm crop. Due to its high and early peak of production also suitable for short-term crop in early or late season (hand harvest).

RESISTANCE KEY: Ccu: *Cladosporium cucumerinum*; CMV: Cucumber mosaic virus; Px: *Podosphaera xanthii*

Advices for cultural practice

Information provided by Nunhems in any form whatsoever is without guarantee. Descriptions, recommendations, and illustrations in brochures and leaflets and on the website are based as closely as possible on experiences in tests and in practice. However, Nunhems does not accept any liability whatsoever on the basis of such information for different results in the cultivated product. The buyer itself must determine whether the goods and information are suitable for the intended growth and/or can be used in the local conditions.

Product illustrations

All varieties shown were grown under favorable conditions. Identical results are not guaranteed nor implied for all growing conditions. © Nunhems BV, 2014. All rights, including property rights, are reserved by Nunhems BV or its affiliates on any matter presented or depicted herein.

DISCLAIMER

The texts and pictures in this booklet are intended to help the grower identify plant diseases that affect his/her crops. The information herein is based on general observations. The pictures might give a distorted image of reality. This booklet was compiled on the basis of all the information available to Nunhems at the time of compilation.
